Master data – number Master data 2014 (status Oct 20th 2014): 408 8-digit Budget appropriations 89 Allocation of funds groups and funds raised groups 427 Key account figures 12,710 accounts 47,072 budget positions

Budget Information System (1)

How data will be provided

- Federal level (sum federation all ministries)
- Department level (sum budget chapter)
- Administrative office level (sum detailed budget)
- Organisational (sum finance position)
- economically (allocation of resources, accounting code digits)
- Additional information (specifications, controlling instances,...)

Budget Information System (2)

· Which data will be provided

- Budget figures
- Billing data (as is)
- Budget corrections
- Previous impacts running year
- Previous impacts future years
- Annual /monthly remains

15

Budget Information System (3)

• Which reportes will be provided

- Annual reports
- Monthly reports
- Annual / monthly series
- Reports for cash flow statement and operating statement
- Budget correction reports
- others

Budget Information System (4)

Report navigation

- Drag and Drop
- Filtering options
- Text view
- Creation of sub totals/intermediate totals
- Calculations
- others

17
